Key Digital Sponsors Tikva Children's Home

Mt Vernon, NY. Key Digital, Inc. the Experts in Digital Video technology and solutions, is happy to announce the sponsorship of the Tikva Children's Home in Odessa, Ukraine. The sponsorship of the Tikva Children's Home is the latest step in Key Digital's continued effort to build upon its commitment to the national and international community.

"Key Digital's partnership with Tikva Children's Home has had a major impact on the lives of abused, neglected and impoverished girls and boys in Odessa, Ukraine. Not only have they provided generous financial support to our charity, but their Vice President, Michael Lakhter, visited the homes this summer and brought bicycles and scooters for the youngest children, which was a wonderful personal gesture. We are proud to work with the Key Digital team in providing important resources for Odessa's Jewish community and in raising awareness of Tikva's life-saving work here in the States." Emily Lehrman, Vice President of Strategic Development & Operations of Tikva Children's Home

To find more information on Tikva Children's Home, and to discover donation opportunities, please visit the [Tikva Children's Home webpage](#).
