## Key Digital® Announces Partnership with iRoom®

Mount Vernon, NY. Key Digital, Inc. – May 13<sup>th</sup>, 2016 – [Key Digital](#)®, an award winning ([CES](#), [InfoComm](#), [CEDIA](#), [NAHB](#)) manufacturer of leading-edge technology for HDTV applications, is announcing their partnership with [iRoom](#)® for the upcoming [InfoComm 2016](#) in Las Vegas, Nevada.

Developed and tested in Oberndorf, Austria, the [iRoom](#)®'s iBezel and iTop allow for mobility of the iPad and central control through unique iPad docking stations with easy access buttons.

CEO of [iRoom](#)®, Marc Hofer, said: “A common criticism of using the iPad is that it needs to ‘wake up’ and you need to navigate to the control App before you can do anything with it. iBezel adds eight, and iTop six, backlit, customizable touch buttons on the glass faceplate that can be assigned IP control commands in order to give the user immediate access to audio, video, and any electronic devices through the home or corporate IP network.”

iRoom provides elegant iOS docks perfect for any home or business. [Compass Control](#)® represents the first fully integrated major control system built from the ground up to use Apple's iOS devices as its backbone. By pairing any iBezel or iTop products with [Compass Control](#)®, users will have an all-in-one smart automation system with a state-of-the-art user interface.

[Compass Control](#)® is currently comprised of three main components: the [Compass Control](#)® Software License ([KD-CSLX1](#)) and the [Compass Control](#)® Master Controller ([KD-MC1000](#)). When these elements are combined with the [Compass Control](#)® App – currently available in the App Store on iTunes – any installation is now given complete control over audio, video, HVAC, lighting, shades, and security.

The attractive aluminum housing of the iBezel and iTop enables elegant storage and charging capabilities. With [Compass Control](#)®, iRoom products provide convenience not only in the headquarters of Key Digital®, but also on-site at our booth locations.

For more information on how [Key Digital](#)® is revolutionizing digital video transmission, visit <http://www.keydigital.com>. Learn more about iRoom at <http://www.i-room.com.au>. Key Digital® will be exhibiting at [InfoComm 2016](#). For more information [click here](#) or visit us at Booth C9122.

## Key Digital Industry Leadership
