## **Many IC Realtime Surveillance DVRs Now Natively Integrate with Key Digital Compass Control System**

*Pure bi-directional drivers provide full DVR control and feedback; incorporation into design software increases efficiency for integrators*

**Mount Vernon, NY – July 15, 2013** – IC Realtime’s Flex, Elite, NVR700N and NVR700S2P series video surveillance recorders now natively integrate into Key Digital’s Compass Control® system. As a Compass Alliance™ Partner, IC Realtime worked closely with Key Digital to develop pure bi-directional drivers that provide full DVR control, as well as feedback from the IC Realtime device.

Compass Control is a fully-integrated major control system designed around Apple's iOS devices (iPad®, iPad mini®, iPhone®, and iPod touch®). The system provides installers with bi-directional IR, two-way RS-232 with feedback, and two-way TCP/IP control. The new drivers are part of the design software.

“Resulting from cooperative efforts between Key Digital and IC Realtime, the integration of IC Realtime’s DVRs within the Compass Control environment represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment functionality,” stated Key Digital’s Vice-President of Sales, Michael Lakhter.

“The Compass Alliance™ Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators,” Lakhter concluded.

### **About IC Realtime**

IC Realtime is a global leader in the design and manufacture of advanced visual surveillance solutions - founded by experts with a combined 35 years of experience in the development, marketing, sales, installation and support of security and alarm equipment. The company offers a wide variety of analog and IP cameras, DVRs, NVRs, software Apps and accessories. [www.irealtime.com](http://www.irealtime.com).

**About Key Digital<sup>®</sup>**

Key Digital is a CES award-winning developer and manufacturer of leading-edge technology for HDTV applications, delivering total video systems solutions. The company manufactures a wide range of digital video processing and video signal distribution solutions marketed broadly to the HDTV community, such as digital video and audio processors, switchers, distribution amplifiers, cables, adapters, and more. For more information, visit [www.keydigital.com](http://www.keydigital.com).

**Key Digital Industry Leadership****Mike Tsinberg, Founder and President of Key Digital, is a holder of 40 HDTV patents**

- “Father of DVD” - Developed architecture and system software for world first Digital Video Disk (DVD) MPEG2 based authoring system - key DVD enabling technology
- Participated with Emmy Award Winner for DVD technology development
- 2009 Inductee as one of the Top 200 Pioneers of HDTV by the Academy of DTV Pioneers (CEA)
- SMTPE Fellow
