For Immediate RELEASE

SDI Worship Installs Compass Control[®] for Northside Church, Atlanta History Museum, and Nationwide Marketing Group

Mount Vernon, NY. Key Digital, Inc. – May 1, 2014 – Key Digital[®], an award winning (CES, CEDIA, InfoComm, NAHB) manufacturer of leading-edge technology for HDTV applications, showcases Sound, Design, and Innovation (SDI) Worship install of the Compass Control[®] system. Compass Control[®] represents the first fully integrated major control system built from the ground up to use Apple's iOS devices – iPad[®], iPad mini[®], iPhone[®], and iPod touch[®] – as its backbone.

SDI Worship implemented the Compass Control[®] system in Northside Church, Atlanta History Museum, and Nationwide Marketing Group in Atlanta, Georgia. Using Compass Control[®] low cost and amazing features were able to accomplish and exceed each locations needs for a control system.

Aaron Catlin, President, of SDI Worship states “We use it anywhere we need control right now and until somebody else trumps it, we will continue to do so. If it can be controlled this system can handle it. It is incredibly easy to program compared to other systems and it has proven to be quite reliable.”
