Key Digital® Introduces HDMI Blaster™, Extending the Length of your HDMI Cable Runs to up to 150 Feet

Mount Vernon, NY– **Key Digital Systems (Key Digital®)**, a leading total systems solution provider of custom installation and home theater digital video products, proudly continues its HDMI digital interface product expansion with the introduction of its state-of-the-art digital **HDMI Blaster™** HDMI cable extender.

HDMI Blaster™ is the perfect solution for transparently extending the lengths of your HDMI cable runs up to 150 feet (with 2 x 75 foot cables). You'll enjoy all the advantages of crystal-clear digital connections to your display by inserting the adapter in the middle of your cable run. This smart adapter draws its own power from the HDMI signal, so there is no need to provide external power to the unit. The intelligent circuitry built into the **HDMI Blaster™** can even support 1080p, so you can enjoy the benefits of true HDTV.

- Allows you to go all-digital, with cutting-edge HDMI cabling
- Each unit effectively doubles the length of your HDMI cable run, up to a total of 150 feet (2 x 75 foot cables) for 1080i and 720p, and 60 feet (2 x 30 foot cables) for 1080p
- Smart circuitry delivers the cleanest HDMI signals over the longest cable runs
- Easy to install in-line design, totally transparent operation, no external power supply required

The HDMI Blaster™ by Key Digital® is available now, with an MSRP of \$299

The wide range of leading-edge technology products from **Key Digital®** are rapidly expanding to accommodate the HDMI digital interface, including **Digital Video and Audio Processors; Switchers; Distribution Amplifiers; Video and Interface Adapters;** and **HDMI, DVI, and Analog Cables.** **Key Digital's** CES award-winning products are developed as key solutions for HDTV Home Theater Retailers, Custom Installers, System Integrators, Broadcasters, Manufacturers, and Consumers. The **HDMI Blaster™** is **Key Digital's** latest entry into this rapidly expanding marketplace.
